3				

2. The interview in the household was:

1. ☐ conducted
2. ☐ not conducted

If the interview was not conducted (answer no. 2), go on to provide reasons (point 3). If the interview was conducted, fill in the collective information on the individual interviews (point 4).

3. Reasons for not conducting the interview

Choose one of the options given below and write its number in the boxes ☐ ☐

Although the household was contacted, the interview was not conducted because

1. the household is unable to take part in the survey (old age, illness, alcohol intoxication)
2. the household members are foreigners (beyond the scope of the survey)
3. the household initially refused to take part in the survey (it is possible it will be willing to take part in the survey in the coming years)
4. the household definitely refused to take part in the survey now or in the future It was not possible to contact the household (although it was localised) because:
5. all household members were temporarily absent due to their stay abroad
6. all household members were temporarily absent due to a holiday trip
7. all household members were temporarily absent due to other or unknown reasons
8. no one was present at home.

The household could not be localised because:

9. the address provided on the list could not be localised (e.g. the address does not exist, the dwelling was unoccupied, the dwelling had been liquidated)
10. the household changed the place of residence and the new address could not be established
11. the interview was not conducted due to other reasons (e.g. all persons from the household moved to a multi-occupancy accommodation facility).

4. Collective information on the individual interviews (all household members aged at least 16 as of 1 March 2015 are to complete an individual interview)

- 4.1. Number of persons in the household to complete an individual interview
- 4.2. Number of conducted individual interviews
- 4.3. Number of individual questionnaires recognised as not filled in accordance with the instructions

5. Does the household consent to take part in the survey in the subsequent years?

(Choose one of the options given below and mark the appropriate box)

- 1 ☐ YES 2 ☐ NO 3 ☐ DOES NOT KNOW YET

I confirm that the information presented in the questionnaire was collected in accordance with the procedure under the survey.

SOCIAL DIAGNOSIS 2015

An independent survey of the conditions and quality of life in Poland

PART II, individual survey

MALE

Identification number of the household (as in Part I/A)

Reference number of the person (to be copied from Part I/C)

Name (to be copied from Part I/C)

People differ between each other. They live in various conditions, they react to everyday events in a different manner, and they have varied ways to deal with what life brings.

This questionnaire concerns your personal perception of your own life. The majority of questions should be interesting for you, some of them may seem boring and tiresome but many will be easy to answer – after all it is your life they concern; although some of them may prove to be difficult as well. Please answer them the best way you can.

Sometimes you may have the impression that certain topics reappear and the same questions are asked, only in a changed manner. And you will be right. We are searching for the best way to ask questions. Do not be surprised if we jump from topic to topic – the questions in the sets have been listed randomly.

You may be sure your answers will remain confidential. All answers will be used only for scientific purposes as part of collective statistical analyses.

In the case of some questions various possible answers may be given to choose from. Please mark the one which describes your situation best. In some cases more than one answer can be checked. If the question has no ready answers to choose from, please enter the appropriate information in the indicated space.

We kindly ask you to fill in this questionnaire on your own, without any help from other family members. We would like to learn about your individual assessments and feelings and not the opinions discussed with other persons. If you have any problems with answering any of the questions, please ask the interviewer for help..

INSTRUCTION

In the questions where one or more answers may be selected please mark your choice by crossing the appropriate box, in the following manner: .

In the questions where your assessment should be given, please enter the digit matching your assessment in the box. If the scale of assessment for such questions looks as the one below

1	2	3	4	5	6	7
Completely not important						Very important

The intermediate numbers (2, 3, 4, 5, 6) mean that the lower the number, the less important a given issue is (2 is less important than 3) and the greater the number, the more important the issue is (6 more important than 5).

In questions which a numerical value should be provided, please put it in the correct squares, making sure that the last digit is in the last square, for example: if a number of friends is 12, then

1	2
---	---

 and if it is 5, then

1.3. Instructions for interviewers

INSTRUCTIONS CONCERNING THE ORGANISATION AND PRINCIPLES OF FILLING IN THE QUESTIONNAIRES UNDER “SOCIAL DIAGNOSIS 2015” R8

Introductory notes

The survey “Social Diagnosis” is a cyclical study, repeated on the same sample of households.

In the current eight wave (*R8*) we are planning to interview all the households which took part in the previous rounds and consented to further participation in the survey, as well as the households from a new sample.

The 2015 study will include only those households (questionnaire for the household) from previous rounds that were present on the collective list sent to the Voivodship Statistical Offices by e-mail. If this list includes a household, however, any of its present members is absent from such list, such a person is assigned a number following the last number from the 2009 list. If the household no longer includes a person from the list, such person retains its number and in Part I Section C lines 35, 38, 39 and 41 are filled in.

The most important information identifying the persons examined in the previous rounds is their **fixed number** - it should be carefully and visibly rewritten from the collective list.

The information on the household is collected based on the interview with the household head or a person well aware of the household matters (Part I of the questionnaire). All household members aged 16 and above (as of 1 March 2015, i.e. all persons born after 1 March 1999) fill in Part II of the questionnaire on their own in the interviewer's presence. If any respondent is unable to fill in this part on his or her own, the interviewer is obliged to help them. Part II of the questionnaire has been prepared in two versions - a male and a female one. Men may not be given the female versions and vice versa as the questionnaire has the respondent's gender coded in it.

IMPORTANT: Some persons examined in the previous rounds do not complete individually Part II but the ISSP questionnaire. These persons are included in the address list in last column R (first digit).

The definitions, classification and groupings are in majority in accordance with the research based on the samples of households conducted by the Central Statistical Office (GUS). The proposed extensions or slightly different classifications come from the recommendations of *Eurostat* for the survey of households.

In the case of the households that were examined under *previous rounds*, apart from the full form for the current wave, you will receive also a part of the information from Part I from Section A, B and C from previous studies. The data should be filled into the questionnaire before the interview or checked during the interview/.

- A. HOUSEHOLD_NO. – identification number of the household (Section A, Part II and ISSP)
- B. Questionnaire_No. - (top right corner, Part II or ISSP)
- C. Fixed number of the household (top right corner of the questionnaire)
- D. VOIVODSHIP (Section A, territorial symbol)
- E. powiat (Section A, territorial symbol)
- F. POWIAT_NAME (do not write it in the questionnaire)
- G. GMINA (Section A, territorial symbol)
- H. address (Section A, address)
- I. phone (verify, please)
- J. CLASS_OF_PLACE_OF_RESIDENCE (Section A, symbol of the class of residence)
- K. Fixed_number (Section C and Part II, right top corner)
- L. PERSON_NO_IN_THE_HOUSEHOLD (Part II and ISSP – the same as the reference number of the person from Section C)
- M. NAME (Section C, Part II, ISSP)
- N. Date of birth (please, verify)
- O. SEX
- P. issp (if digit 1 is included in the address list, this person should be given the ISSP questionnaire, instead of Part II)

We ask you to conduct the interview in Section C based on this information from the previous rounds, i.e. taking into account all the persons in the household present on the list of persons from previous rounds as well as any new persons in the households from *R5*.

Remember to retain the previous rounds numbers for the persons in the household and to assign the fixed numbers to them, while the persons who joined the household after the last survey or were not present on the list are assigned with the numbers following the last number of the person from the list. **If the number of persons is higher than 8, all persons with the numbers above 8 are described on a separate sheet for Section C.** For the persons who permanently left the household after the last round, please fill in only the following lines: 35, 38, 39 and 41.

Our aim is to conduct individual interviews (Part II of the questionnaire) with all household members aged 16 and above, even with those who for various reasons were not interviewed during the previous rounds.

If there is more than one household living at the same address, the household the interviewer visited first and which consented to take part in the survey is examined.

The cards to be shown to respondents do not feature such answers as “I do not know” or “It is hard to say”, however, these answers may be present in the questionnaire and may be marked if a respondent spontaneously answers the question this way. In the questions which are not accompanied with the card, such answers are not read to respondents, but are marked (if they are present on the scale of answers) when a respondent spontaneously answers the question this way.

Please inform the examined households that, as in the previous years, they will take part in a lottery with 15 money prizes, with the value of PLN 600 each.

Detailed characteristics

PART I

SECTION A. HOUSEHOLD CHARACTERISTICS

point 0 - please enter the one-digit number to mark the status of the household in the survey symbol

- 1 the household took part already in the study wave and still lives at the same address => go to point 1
- 2 the household took part in the fifth study wave but has changed the place of residence or all household members have moved to a multi-occupancy accommodation facility => an interview is not conducted
- 3 a new household (previously did not take part in any study wave), randomly chosen in current round

point 1 - enter the seven-digit number of the territorial unit according to the new territorial division of the country (Voivodship, powiat, gmina)

point 3 - enter the one-digit number for the place of residence category of the household's present place of residence, according to the list below: symbol

- 1 cities with more than 500k inhabitants
- 2 cities with 200k to 500k inhabitants
- 3 cities with 100k to 200k inhabitants
- 4 cities with 20k to 100k inhabitants
- 5 cities below 20k inhabitants
- 6 rural areas

point 4 - enter the household identification number. The identification number was hitherto composed of five digits and did not change in the subsequent survey rounds. Therefore, the households which already took part in the survey will have now the same number in the mailing list; and new households will have a new six-digit number taken from the pool of numbers for the given Voivodship to be assigned to such household (110,001 to 115,000).

point 5 - A family is composed of the household members bound by marriage/unmarried couples, blood ties or adoption. Thus, the following types of families may be distinguished: regular families - a married or unmarried couple with no children, a married or unmarried couple with children; single - parent family - a mother with children, a father with children.

Non-family households are the household where there is no family (as defined above). There are non-family one-person households and non-family multi-person households (e.g. a grandmother with a grandson, siblings residing together, persons residing together but not related by blood). If there is no family in the household, enter 0.

Point 6 - enter the one-digit number for the main source of income in the household, in accordance with the list of symbols below (if there are several equally important sources of income, enter 7): symbol

- 1 households of employees
- 2 households of farmers
- 3 households of self-employed persons, except for individual agricultural holding, liberal professions, self-employment
- 4 households of retirees
- 5 households of pensioners
- 6 households with income received but not earned and other than old age or disability pension
- 7 several equally important sources of income in the household

SECTION B. INFORMATION ABOUT CONDUCTING THE INTERVIEW

Question 5 - ask whether the household consents to participation in the next survey in 2017

PART C. COMPOSITION OF THE HOUSEHOLD

1 the person's reference number - for the households interviewed previously, please assign the household members with the same numbers as in mailing list. If there is a household member who was omitted on the list sent to the Voivodship Statistical Office, assign the first unoccupied number. A new person in the household previously interviewed is also assigned with a subsequent number. If there are more than 8 household members, in the case of the other persons (number 9, 10, etc.) the data in C section are entered on a separate sheet, which should be folded with the questionnaire after the interview.

2 fixed number - the number assigned to the persons who took part in previous rounds and included on the list of the households which qualified for the survey in 2015 in column K.

Line 4 - please enter for the relevant person the one-digit household head's and the remaining persons symbol for the relationship with the household head:

symbol

- 1 household head
- 2 husband, wife
- 3 partner
- 4 son, daughter
- 5 son-in-law, daughter-in-law (partner of the child)
- 6 grandson, granddaughter
- 7 father, mother, father-in-law, mother-in-law
- 8 grandfather, grandmother
- 9 brother, sister
- 0 other person

The household head is the person who provides the household with all or the majority of the means of living.

Line 5 - enter the one-digit symbol of the family number for each person:

symbol

- 1 for the members of the first family,
- 2 for the members of the second family,
- 3 for the members of the third family,
- 4-8 for the members of the fourth and further family,
- 0 for the persons who are not family members in a family household or for the persons in a non-family or a special household

Part II(individual questionnaire) and ISSP questionnaire

The interviewer fills in only the first page (by rewriting the household number, the person's number, the fixed number for the persons from the panel sample and the name from section A and C), the rest of the questionnaire is filled by the respondent in the presence of the interviewer.

In exceptional situations the respondent may fill in the questionnaire without the interviewer being present. In such a case an envelope should be attached to the questionnaire in order to prevent other household members from looking into the filled in questionnaire before it is collected by the interviewer.

Please explain the rules of filling in the questionnaire (page two) in a clear manner, especially the meaning of the scales with numbers and word definitions only next to the extreme values. Please draw the respondents' attention to the fact that the date of birth on page 3 may not be written with Roman numerals (e.g. 15 02 78, and not 15 II 78).
